22 October 1979

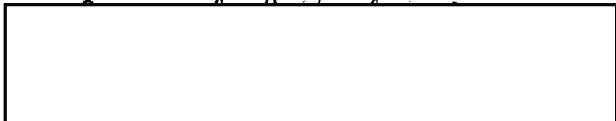

MEMORANDUM FOR: Coordinator for Academic Relations, NFAC  
SUBJECT : Request to Speak Before a Group

The Department of Government of Harvard University has invited me to speak to their graduate students on the morning of 10 November 1979 in Cambridge, Massachusetts. They wish to hear a former alumnus relate how his graduate training prepared him for and relates to his current government service.

I intend to describe the kinds of political analytical work I have done over the past three years at CIA and suggest the kind of preparation that would be useful to someone contemplating such a career. I will draw upon some of the material I collected during my preparation of the (unclassified) CIA report to the Presidential Commission on Foreign Language and Area Studies. I will discuss no classified information.

On this basis I request permission to speak at Harvard University and travel and per diem expenses, which I calculate will be approximately two hundred dollars.

STATINTL

  
Assistant to the  
National Intelligence Officer  
for Political Economy
